

### IN THE DRAWINGS

The drawings were objected to as failing to comply with 37 C.F.R. § 1.84(p)(4) because reference character “210” has been used to designate both sample location and a computer, and reference character “220” has been used to designate both camera and communication link.

Corrected drawings are supplied herewith.

Enclosed is a copy of Figure 6 of the drawings showing the following proposed amendment.

In Figure 6, reference characters 210, 220, 202, 204, 206, 208, 212, 214, 216, 218 and 225 are replaced respectively by reference characters 610, 620, 602, 604, 606, 608, 612, 614, 616, 618 and 625, so that reference character “210” designates sample locations and reference character “220” designates a camera, while reference character “610” designates a computer and reference character “620” designates a communication connection. Applicant believes that such amendment of Figure 6 overcomes the objection of the drawings.
